Obscure Anime Character Icon:

The first “Project 3 Deliverable” icon represents an obscure anime character. He is a blue ninja alien frog who has beautiful sad crying eyes. He has various shades, gradients, midtones, shadows, & highlights on his silver mask on his face with pink rosy cheeks & white booger, & silver hat & veil with a red “diamond” symbol on top of his giant head. I was able to draw various white shades on his hat & veil, but it needs more dark shading on his face, mask, hat & veil. Overall, I would assign this first icon grade of A, because this first icon has various illustration techniques.

Map Locator:

The second “Project 3 Deliverable” icon represents a “Map Locator”. The red “Map Locator” has a green hole in the middle with 2 dark red shades on top of it. It also has a red “X” mark on the bottom with 3 various dark red shades. It even has a light & dark grey shade on the bottom of this icon. I’ve even put 5 white shades on the right side of the Map Locator. While I was able to put 2 grey shades on the bottom of the red Map locator, the red Map Locator still needs more shades, midtones, shadows, & highlights around it. Overall, I would assign this second icon a grade of B, because this Map Locator looks pretty simple.

Blue Thinking Man:

Finally, the third “Project 3 Deliverable” icon represents a blue man thinking of possible various ideas & the pink lower case “i” symbolizes a possible idea. Both of these symbols stand on a light & grey shade on the bottom. Now the pink “i” symbol has 5 light shades on its right shade. Although I was able to incorporate as many various shades, midtones, shadows, & highlights into this third icon as possible, it still needs more improvement either way. Overall, I would assign this third icon a grade of A, because I was able to use various illustration techniques on a simple icon.
